

Extra Credit Writing 7 (Deadline Friday May 1, 11:59 PM) (The last one! Note this is due on a Friday, not a Wednesday)

This extra credit assignment is worth at most 5 extra credit points.

Prompt. Reflect on your experiences so far here at Texas State. What could it do better? What do you wish the faculty knew about the student experience? What does the Math Department do well, or not well? Your writing can be based on your personal knowledge; I just want some feedback about me or about the system, so I know how to be even better in the future.

Next, look back on your own role in your experience so far at Texas State. What have you done well? What could you have done better? No need to include anything too private; but I'd like you to reflect not just on your environment, but also on what was within your control.

Finally, are there ways in which your ideas from the two previous paragraphs intersect? How are these intersections helpful, and how have they been detrimental, to your learning?

Miscellaneous guidelines. Usual formatting guidelines. Upload on Canvas in **PDF format** by the above indicated deadline.
