

12 Writing Assignment Due Thursday, April 30 (The last one!)

Prompt. Look back on your semester, and find a topic you feel you have not learned sufficiently well. Take the time to try to learn it a little better.

Write about that experience, and whether your understanding has improved. Be as specific as you can; for example, just show me how you were stuck on a kind of problem before, but now know how to do it. (Make sure to explain how you were stuck, and how you are now un-stuck).

This is again a chance for you to take some time to review the material prior to the final exam (which is eight days after this assignment's due date).

Format. See online. Only PDF uploads are accepted on Canvas.
